

THE UNIVERSITY OF ARIZONA
COLLEGE OF HEALTH SCIENCES

Genetic Counseling Graduate Program

PRESENTS

Genetics and Genomics Grand Rounds

October 16th | 4 – 5:00 pm | HSIB 880/Zoom

<https://arizona.zoom.us/j/83648686758>

Telephone: 602-753-0140 | Meeting ID: 836 4868 6758

Contact: Kathy Ben | kben@arizona.edu

The Arizona Clinical Genetics Landscape: Exploring the Impact of a Limited Clinical Genetics Workforce

Dr. Valerie Schaibley earned a PhD in Human Genetics from the University of Michigan, studying patterns of spontaneous mutation in the human genome. Prior to joining UA, she worked in a precision medicine start-up company for several years in a variety of roles from genetic testing product development to scientific communication strategies. Currently, Dr. Schaibley is the Associate and Research Director for the UA Genetic Counseling Graduate Program in the College of Health Sciences. She is also an Assistant Professor in the Department of Cellular and Molecular Medicine. At the UAGCGP, she works with program leadership to oversee program operations, teach graduate-level courses and manage and mentor student research. Her current research focuses on clinical genetics education and access to clinical genetics services for patients.

Valerie Schaibley, PhD

Associate Director and Research
Director, Genetic Counseling
Graduate Program
